

FINDER FARM-OUT BROWSE PERMIT - AC/P 52

Finder Exploration Pty Ltd ("Finder") is pleased to announce that it has entered into a farm-out agreement which provides for Sasol Petroleum Australia Limited, a wholly owned subsidiary of Sasol Petroleum International ("SPI"), to earn 45% in exploration permit AC/P 52. The permit is located in the north western part of the Browse Basin as shown in the location map below.

Finder's Managing Director, Jan Ostby, said the agreement was yet another significant step in the ongoing delivery of Finder's overall northern Browse Basin exploration portfolio which enables Finder to reduce their financial exposure whilst maintaining a significant holding in the Permit.

"We are very encouraged and excited to be joining forces with Sasol in AC/P 52. To date we have identified several key prospects and leads, including the large multi-TCF size "Cronus" gas prospect, and we are pleased that Sasol has chosen to join us and recognises the prospectivity of this exploration acreage. The next steps for the permit will be the acquisition and interpretation of over 500 km² of 3D data in 2010 and we look forward to working with Sasol on this dataset to mature a drill ready target."

Sasol Group General Manager Lean Strauss said the acquisition marks a step forward in Sasol's strategy to secure a significant position in exploration acreage in Australia's NW shelf.

"We see great potential in the prospectivity of AC/P 52 and are eager, together with Finder, to unlock the value in this acreage."

The participating interests in the Permit will be as follows:

AC/P 52	Participating Interest
Finder Exploration Pty Ltd (Operator)	55%
Sasol Petroleum Australia Limited	45%

About Sasol Petroleum International

Sasol Petroleum International Pty Limited (SPI), the wholly owned subsidiary of Sasol Limited, develops and manages Sasol's upstream interests in oil and gas exploration and production in a number of countries. SPI also pursues gas exploration opportunities to enable it to supply feedstock to potential Sasol Gas-to-Liquids (GTL) plants.

Sasol Limited is currently listed on the JSE Limited in South Africa and New York Stock Exchange. Further information is available at www.sasol.com.

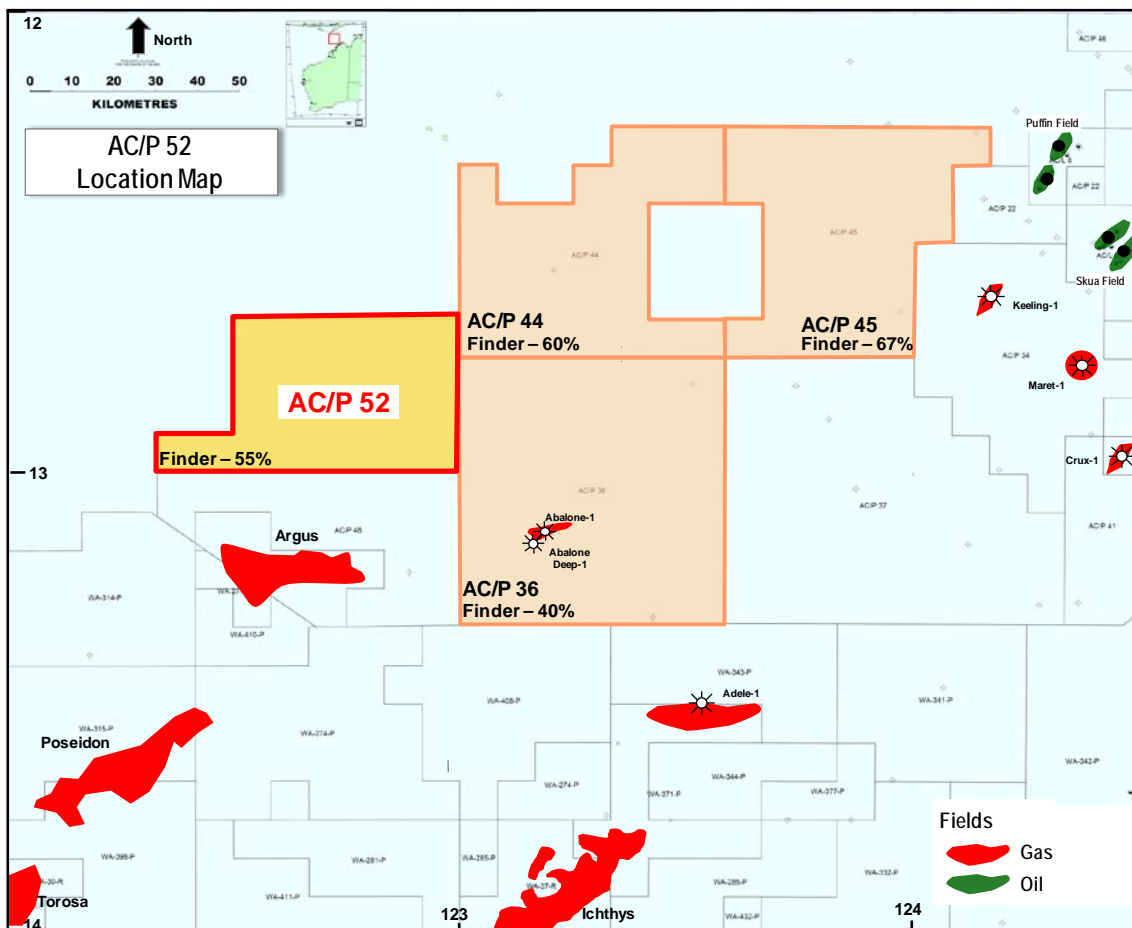

About Finder Exploration Pty Ltd

Finder is a private exploration company which has significant interests in 10 exploration Permits, 9 as Operator, offshore North Western Australia.

Finder also recently announced the farm-out of the nearby AC/P 44 and AC/P 45 exploration permits to Perenco Australia (SE) Pty Ltd.

In addition, Finder has 5 exploration blocks in Jamaica.
